

Young Scholars Plenary Session (YSPS)

The Organising Committee for ACUUS 2023 will organise a Young Scholars Plenary Session (YSPS), featuring outstanding research and engineering work by young scholars.

Eligibility

Only original papers submitted to ACUUS 2023 will be eligible for selection. The candidate must be the sole or lead author of the submitted paper, and must be 38 years of age or younger, on or before 3 November 2023. Shortlisted authors will be asked to provide proof of birth date for verification.

Nomination

Interested and eligible authors must make an on-line self-nomination on the ACUUS 2023 website when submitting the full paper. Nomination will close after the deadline for full-paper submission. The Organising Committee will not accept any other forms of nomination.

Selection

From the papers submitted for the YSPS, the Organising Committee will select a maximum of 6 speakers based on recommendations of the Scientific Committee. The main criteria for selection will be innovations of the research or project, quality of the paper, and importance of the topics to underground space. Shortlisted papers will be reviewed anonymously.

Presentation and Certificate

If selected, the lead/sole author must register and attend ACUUS 2023 to make the presentation in the Young Scholars Plenary Session. The Organising Committee will not provide any financial assistance or waiver of registration fees for contributors to this session. A Certificate of Award will be presented to the winners of the YSPS. The certificate will be signed by the ACUUS President and Organising Chair for ACUUS 2023 Singapore.
